CBMWD considers taxpayer suit

Ray W. Ferguson, Director of the Metropolitan Water District of Southern California representing the Chino Basin Municipal Water District, today indicated that general Counsel for Chino Basin has been requested to give an official opinion on the feasibility of a taxpayer's type suit which would force the Metropolitan Water District of Southern California to reconsider its position in deferring construction of the Rialto Reach of a gigantic water supply system designed to convey Feather River Project water throughout the southland.

Richard Hall, CBMWD manager, reported that Mr. Ferguson's statement echoed the feeling of Chino Basin Municipal Water District's entire Board when he said in his opinion that Metropolitan accepted the responsibility for the construction of the Rialto Reach when it presented to the electorate in November of 1966 its \$850,000,000 bond issue designed to finance its expanded delivery facilities.

General Counsel for Chino Basin has indicated a legal decision in reference to the proposed taxpayer type suit would be presented to the CBMWD Board of Directors within two weeks.

Director Ferguson also stated that in his opinion this legal action will be filed to correct this tremendous inequity. He also expressed

his sincere thanks to Mr. Mikesell as Chairman of the Board of Supervisors and the many other businessmen and community leaders in the area who had helped tremendously in the behind-the-scenes work in attempting to get Metropolitan to render a favorable decision on this very vital issue.

It was noted that of the total votes of Metropolitan's board, 2,277, Chino Basin Municipal Water District has only 44.

A decision that was made last Tuesday resulted in 869 votes in favor of the Rialto Reach which would feed Chino Basin State Project water.

Library, Fire bids under study

Civic Center bids on Library and Fire Headquarters are being studied and tabulated for presentation to City Council, whose earliest opportunity to discuss them will be Tuesday evening, Oct. 24.

Upland received seven bids on the Library and Fire Department Headquarters, first two buildings of the new civic center.

After they were opened the bids were sent to architects

and city staff personnel for the tabulation and study.

These were the seven proposals, in ascending order of the base bids: E. T. Casler, \$723,960; Pokrajac, \$739,700; Steed Brothers, \$746,600; E. F. Gladding, \$748,000; McKee and Hart, \$751,000; W. C. Crowell, \$801,500; and Sperling Construction, \$812,200.

There were some alternates on the bids, but of a relatively minor nature.

City Council is expected to discuss the bids Tuesday night, but not make an award for about another month. Construction may get underway about Christmas.

Only indication of the relative value placed by the contractors on the two buildings was Steed Brothers' bid of \$746,600 which the contractor broke down into \$506,600 for the Library and \$273,500 for the Fire Headquarters.

The Library, to be constructed at Euclid and D St., on the southwest corner of the Civic Center site will have 23,000 square feet of floor space, while the Fire Headquarters station will have 12,000 square feet.

It will be located on the northeast corner of the two-block Civic Center area, on the southeast corner of Second Ave. and Arrow High-

ways. All the present Civic Center Buildings are overcrowded, as is the Library, which was built about a half century ago when Upland was a small village.

Financing of the Civic Center is through the joint authority method, with Upland and the County as the "partners," but with Upland acting as the sole agent for the authority.

Town Center item on Council agenda

Upland Councilmen and other city officials were in San Francisco this week at the League of California Cities conference, but they'll have a Council meeting Tuesday, Oct. 24, and will continue work on the Town Center Beautification project.

On that date Council will adopt a resolution of intention to create the Town Center Improvement District and set a date for a public

hearing for property owners affected by formation of the district. Probable date is Nov. 21. Some 60% of property owners petitioned the city to form the district.

They already have approved \$285,000 for work on the project and issued a call for bids to be opened Nov. 22 on actual construction work.

That will include the kiosk at Second and Ninth, curbing, paving, landscaping and all

the other amenities that will give Upland a new town center of the Mall type with parking in the center of streets.

In another phase, bids will be opened Friday on removing buildings and paving four new parking areas surrounding the Town Center.

The Center area includes Second Ave. from A St. on the South to C St. on the north, and Ninth St. between First Ave. and Third Ave.

Contractor starts work on junior high school

Berry Construction Company started work Tuesday on the addition and rehabilitation of Upland Junior High School, after getting the contract Monday.

Berry was low of three bidders with a base bid of \$969,000. Alternates for site work at seven other schools added \$43,500 to his contract.

Upland Junior High was taken out of service because of deficiencies under the anti-earthquake law, the Field Act.

Adjacent Upland Elementary is now serving as a junior high while the construction work goes on. When it is completed for next fall, the elementary school will revert to its original purpose and junior high students will make use of the revamped junior high school.

The work is being financed by the \$1,110,000 bond issue approved by voters Jan. 31, 1967.

Originally it was intended that the bond issue would cover the purchase of an additional school site, but with costs up, and two more classrooms at Upland Junior High than was originally intended, it appears that the bond fund will be insufficient for the site purchase and the construction job.

Police honored

Two presentations were made at Upland Host Lions Club last week, a surprise honoring the Upland Police Department, and \$1,000 to Old Baldy Boy Scout Council.

Bill Vallon, as chairman of the local government week committee, presented Capt. John McCarthy with a resolution in appreciation to the Police Department to highlight the government week observance.

McCarthy, who was also there to present a program featuring a film on LSD, "Insight or insanity?" accepted the award on behalf

Museum to get walks

Members of the Upland Woman's Club voted this month to donate between \$500 and \$650 to the Chaffey Community Cultural Center for the purpose of building the side walk, aprons and sprinkling system around the museum on West 18th St.

Mrs. Lawrence Banta, club president said this week that the money will come from the club's Civic Improvement Fund, which has been building up since 1956 and can only be used for a worth-

while civic project.

Mrs. Beatrice Riggs, museum director, expressed her sincere gratitude to the club, when she said, "This is a most welcome addition to the front of the museum and will make the property more accessible from the street."

"The Woman's Club has been responsible for many civic improvement and beautification projects in Upland in the past years," Mrs. Riggs said. Outstanding among these projects are the Bar-b-que in Memorial Park and the Memorial Rose Garden and sun dial just completed.

The much needed sidewalk will be 175 feet long and five feet wide, and the aprons for the drive will be 16 feet long. At present, anyone visiting the museum must walk through gravel and dirt to reach the stone steps leading to the front door.

Mrs. Banta indicated that there is a possibility of an additional sum of \$250 which may be added to the original grant. This money is being donated anonymously in the name of the Women's Club.

Is no news good news?

Upland's Town Affiliation Committee will meet at the Council Chambers on Thursday evening, October 19th at 7:30 p.m.

Although no official word has yet arrived from the National League of Cities Town Affiliation headquarters, as to the position of the city of Caborca, in Sonora, Mexico, it is anticipated that Chairman Zella H. Stone will bring Sister City news from the workshop she will attend Sunday, Oct. 15 at San Francisco, in connection with the state convention of the California League of Cities.

Cities favor change in smoke tax split

A five point plan for redistribution of cigarette tax revenues was drawn up, and unanimously agreed to, by North Orange and San Bernardino Counties public officials and city administrators.

Thirteen cities were represented in a three hour work session to revamp the present cigarette tax law with Assemblyman John V. Briggs (R-35th District).

Fullerton Councilman Duane Winters, a director of the League of California Cities agreed to convey the group's proposals to League officials at their statewide meeting in San Francisco over the weekend.

Administrators unanimously approved requests for: A change in the present law to make it more equitable;

Recognition that those charter cities that were leveling a tax prior to current law should not receive any less under a new redistribution than they were originally collecting;

Maintaining the present 86% distribution rate for cities and 14% for counties;

Providing for every city in California to receive some benefit from the cigarette tax levy;

Urging the California League of Cities to recognize the need for coming up with a workable, new proposal that could be readied in time for presentation to the 1968 California Legislature.

John B. Marshall, senior statistician for the State Board of Equalization, said the SB556 distribution formula has "been under fire from many quarters since it was approved and the formula became known".

Briggs told the 55 member group he would "be happy to author, co-author, or help push through correcting

legislation to solve the inequitable distribution now existing".

No specific proposal was advanced by the group although many were considered. It was felt the time

to come up with a plan would be after the California League took action this week-end which the group hoped would result in a co-ordinated effort to find such a new plan.

NEIGHBORHOOD PROBLEM -- a portion of the Red Hill District area in Cucamonga has been plagued for the past several weeks with noise, dust and now threats from motorcycle riders that scale the hills behind their homes on property owned by the San Antonio Water Company. This is one of the hills that seems to attract the thrill seekers to the area.

Things are being readied for the double-barreled "Vacation Village" sale starting Thursday, Oct. 26, and running through Nov. 4.

Prize for some shopper will be a free week end for two at Vacation Village on Mission Bay, San Diego, with a Bonanza flight down and back, plus other facets of a vacation package.

WOMEN'S CLUB BENEFITS MUSEUM -- Taking a last look at the pebbles and gravel surrounding the Chaffey Community Center are the above representatives of the Upland Woman's Club, which voted this week to donate to the cultural project a sum sufficient to complete a sidewalk, apron and sprinkler system on the grounds. From the left, Mrs. L. H. Banta, club president; Mrs. Neal Van Dorin, and Mrs. Howard F. Clark.

BPW National Business Women's Week

Members and guests of the Upland Business and Professional Women's Club launched the observance of National Business Women's Week Oct. 15-21 on Thursday evening as they met for the club's monthly dinner meeting at the Upland Women's Clubhouse.

The Honorable James Christensen, Mayor of Upland presented Club President Mrs. Robert Conway with the official Proclama-

tion declaring the observance of the week, in Upland.

She also reminded her audience that other civil-

izations have been great and affluent, but have perished, because the worth of every individual was not recognized. She stressed the importance of their being an opportunity for each and every individual to develop their capabilities to the fullest degree.

She urged those women who are not active in community activities to become involved to add richness to their own lives.

Stanley Berger delighted his audience with a program of lively numbers on his accordion.

Miss J. Frances Barks gave the history of National Business Women's Week.

Mrs. Jay R. Thrasher announced plans for the Youth Leadership Conference to be held at Chaffey College, on Nov. 11. Mrs. Norma Yocum will be one of the speakers upon that occasion, as will Mr. Gary Gange. The conference is sponsored by the San Orco District California Federation BPWC and Chaffey College.

Cucamonga dies in train-car accident

Sharon K. Bresley, 19, of 8158 Avenida Vajar, Cucamonga, was killed Sunday evening in an unusual train-car accident at Campus Avenue and the Southern Pacific Railroad tracks.

Assistance League brings 239 women to Patroness Tea

Varying shades of bronze chrysanthemums formally arranged with avocado velvet leaves set the decorative motif for Assistance League of Upland's twelfth annual Patroness Tea Wednesday afternoon (Oct. 11) at the League Center, Cucamonga.

Fifty-two Assistance League members and nine provisionals greeted the 239 women from the West End who thus far have indicated their desire to become League patronesses. The tea is given in their honor in recognition of their financial contributions which help support League's two main philanthropies, Girls' Club of Cucamonga and San Antonio Community Hospital Dental Center. Life and sustaining members of League also were honored at this traditional fall event.

The receiving line included Mrs. John W. Mortensen, League president; Mrs. Raymond W. Fischer, tea chairman; Mrs. John Cooper, vice-president; Mrs. R. per, vice-president; Mrs. Rene Biane, immediate past-president; Mrs. Kenneth Litchfield, chairman of League's Las Tias auxiliary; Mrs. Paul R. Gardner, Jr., ways and means chairman, and Miss Jeanette Allen, Assistants chairman.

Mrs. Alan Swinler was tea co-chairman and in charge of food. Mrs. Fischer and Mrs. Andrew K. Penque, a member of Las Tias auxiliary, collaborated on tea decorations. Lace insertions in the handmade cloth on the table were interwoven with avocado velvet ribbon. The pyramid arrangement centering the table featured multi-sized mums in varying bronze shades, with avocado velvet leaves. Similar arrangements were repeated on the table in the foyer and highlighted a seating arrangement before the fireplace.

A sideboard arrangement featured Georgian candelabra with bayberry candles and an Adams fruit basket holding fresh fruits embellished with avocado velvet leaves. Velvet leaves in the same shade combined with bronze mums in a semi-circle accent for the punch bowl.

Pourers at the tea table included Mrs. Robert Wal-line and Mrs. Mary G. Boyd, both life members and members of advisory board; Mrs. G. Vernon Sleuman, Mrs. R. G. Manley and Mrs. Leslie A. Kalid, life members; Mrs. Jerene Appleby Harnish and Mrs. R. Fred Price, honorary patronesses and Mrs. Charles Walker, a patroness whose husband is an

advisory board member. Mrs. George E. Yetter was in charge of pourers.

Serving punch were Mrs. Yetter and Mrs. Frank Hutchinson, both active life members; Mrs. William Walton, past president, and Mrs. William E. Walk, Jr., whose husband serves on its advisory board. Mrs. Hugo Melillo was in charge of punch servers.

Other chairmen assisting Mrs. Fischer included the Mmes. Thomas T. Parker, Andrew Barmakian, Arthur Accomazzo, Carl J. Hase, Jr., Kenneth D. Camp, Karl Kaiser and Thomas Carnesi.

"Name just one thing that doesn't cost more today."

How about electricity. Maybe you don't realize it, but you're paying less per kilowatt-hour for electricity now than you did five years ago.

The average cost of a kilowatt-hour of electricity to Edison customers for residential use has gone down 17% in the last five years. That's because of the increased use you make of electricity. It's like a quantity discount.

And your price of electricity has gone down despite the fact that our costs for labor, materials and taxes have gone up.

Of course, you're using electricity for so many more things these days that your bill may seem to be a bit higher. But any way you look at it, electricity is a terrific bargain. Not only because it's inexpensive, but because it lets you do and enjoy so many things.

If you're an average consumer, you use our product in about forty different ways in your home. And that's not counting special uses like a home workshop or a ham radio or a slot car racing track.

Where else can you get such a good buy without even having to shop around for it?

Lecture series to explore what makes family tick

"The Family--Making it Tick" will be the subject of a series of four lectures and demonstrations sponsored by the educational committee of the West End Mental Hygiene Association for the public.

The lectures will begin at 7:30 p.m., Monday, Nov. 6, in the auditorium of Vina Danks Junior High School, 318 West "J" St., Ontario, and continue in the three succeeding months. Members of the family and their interaction on one another will be discussed at the sessions.

Heading the Nov. 6 program will be Dr. Walter Kempler of the Kempler Institute of Los Angeles. The psychiatrist will work on stage with an actual family in seeking to help members better adjust to each other.

The Dec. 5 lecture will feature Dr. Calvin Frederick, psychologist, discussing the family in which there is a special child, and the emotional strain this brings to the other members of the family. Special child is defined as any child who is not ordinary because of special abilities or disabilities;

a child who overachieves or underachieves, or a child with a low I.Q. or one with a very high I.Q. As explained by Dr. Frederick, most families have a child who may be called "special."

On Jan. 8, the Association has secured Dr. Nicos Mouratides, sociologist, who will discuss the roles of various family members, how different members may react to each other and to people outside the family, and factors in family disintegration and alienation.

Doctors Anna and Nah Brind, specialists in psycho-

drama, will be featured at the Feb. 5 session. Working with an actual family they will show how problems within a family can be understood through psycho-drama.

A donation of 50 cents will be accepted at each session to meet expenses for the series.

The West End Mental Hygiene Association is sponsoring this educational series in meeting its purposes of attempting to "further Mental and emotional well being and encourage thought

and awareness of human behavior."

Senior Citizens

The California League of Senior Citizens will meet Tuesday, Oct. 24 at 10:30 a.m., at 254-1/2 S. Second Ave., Upland.

Guest speaker will be James Evans who will give a report on what the League is doing to combat the announced changes in the state medical program which provides medical care for those who are unable to pay for themselves.

Small, but makes its mark

By Val Barba
A youthful company in Montclair that employs only 20 people has garnered a great deal of acclaim in the United States space exploration program, Maury Microwave, at 10373 Mills, was the designer and manufacturer of components included in the successful Mariner IV mission-to-Mars project.

Proof of the small company's three-component contribution is in the form of a letter of commendation from Pasadena's Jet Propulsion Laboratories. And what connection does a microwave (that part of the electromagnetic spectrum where the wave length is very short) have to the company's operations? Microwaves are an important communication method and Maury Microwave provides components to guide them.

The company manufactures instruments, components, and test equipment that are used in microwave transmission and measurement. Maury Microwave is one of the largest suppliers of wave-guide components for use in deep space tracking networks used in space exploration. One of the leading companies in its field, it is recognized in the industry for its most sophisticated instruments.

According to President Mario A. Maury Jr., the microwave plant was founded 10 years ago by Mario A. Maury Sr. An anniversary observation is planned for Oct. 15.

Somewhat of a "family affair," the company employs

All the Maurys of Maury Microwave were formerly employed at General Dynamics before the founding of the company.

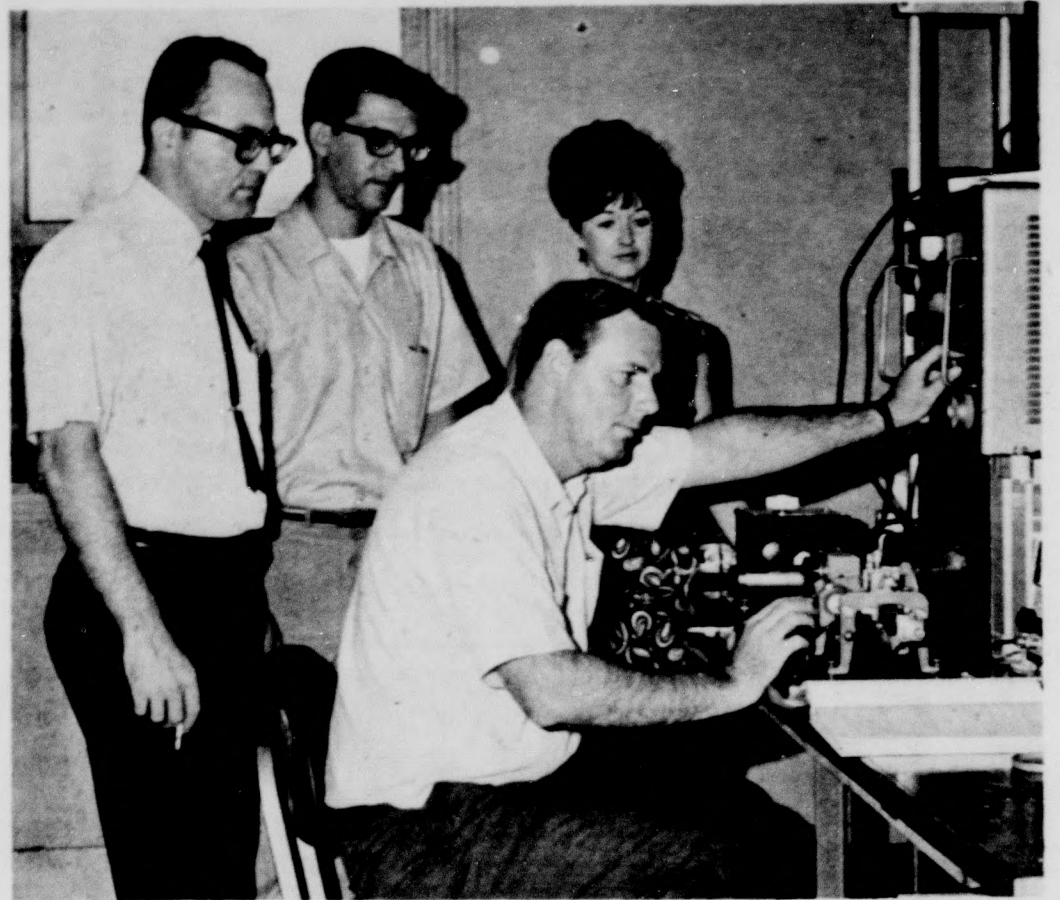

The Mills Ave. site, which accommodates three buildings including a laboratory, has been "home" since the company's inception. However, "growing pains" have made it necessary to move to larger quarters.

Cucamonga's Industrial Park, at Ninth and Hellman, will be the firm's new "home" in 1968. The spacious building was architected by Morgan-Lupher. After the move to Cucamonga, additional personnel will be hired.

Dynamic Maury Microwave attributes part of its exuberance to the youth of its members. The oldest employee is Mrs. Joan Ellis, a bouncing 38 years old. She is private secretary to the firm's even more youthful president as well as being office manager.

Youngest employee is 20-year-old David Hahn, a clerk-driver in shipping and receiving, and a Chaffey College student at night.

Much of the work done at Maury Microwave is done for the aerospace industry. Major clients include Jet Propulsion Laboratories, for which Mario Maury is sometimes a consultant; branches

The company is represented also in northern California at Woodside, by Kipp Associates. They also have an export agent in New York City, Quantum, Inc., which serves as an overseas salesman.

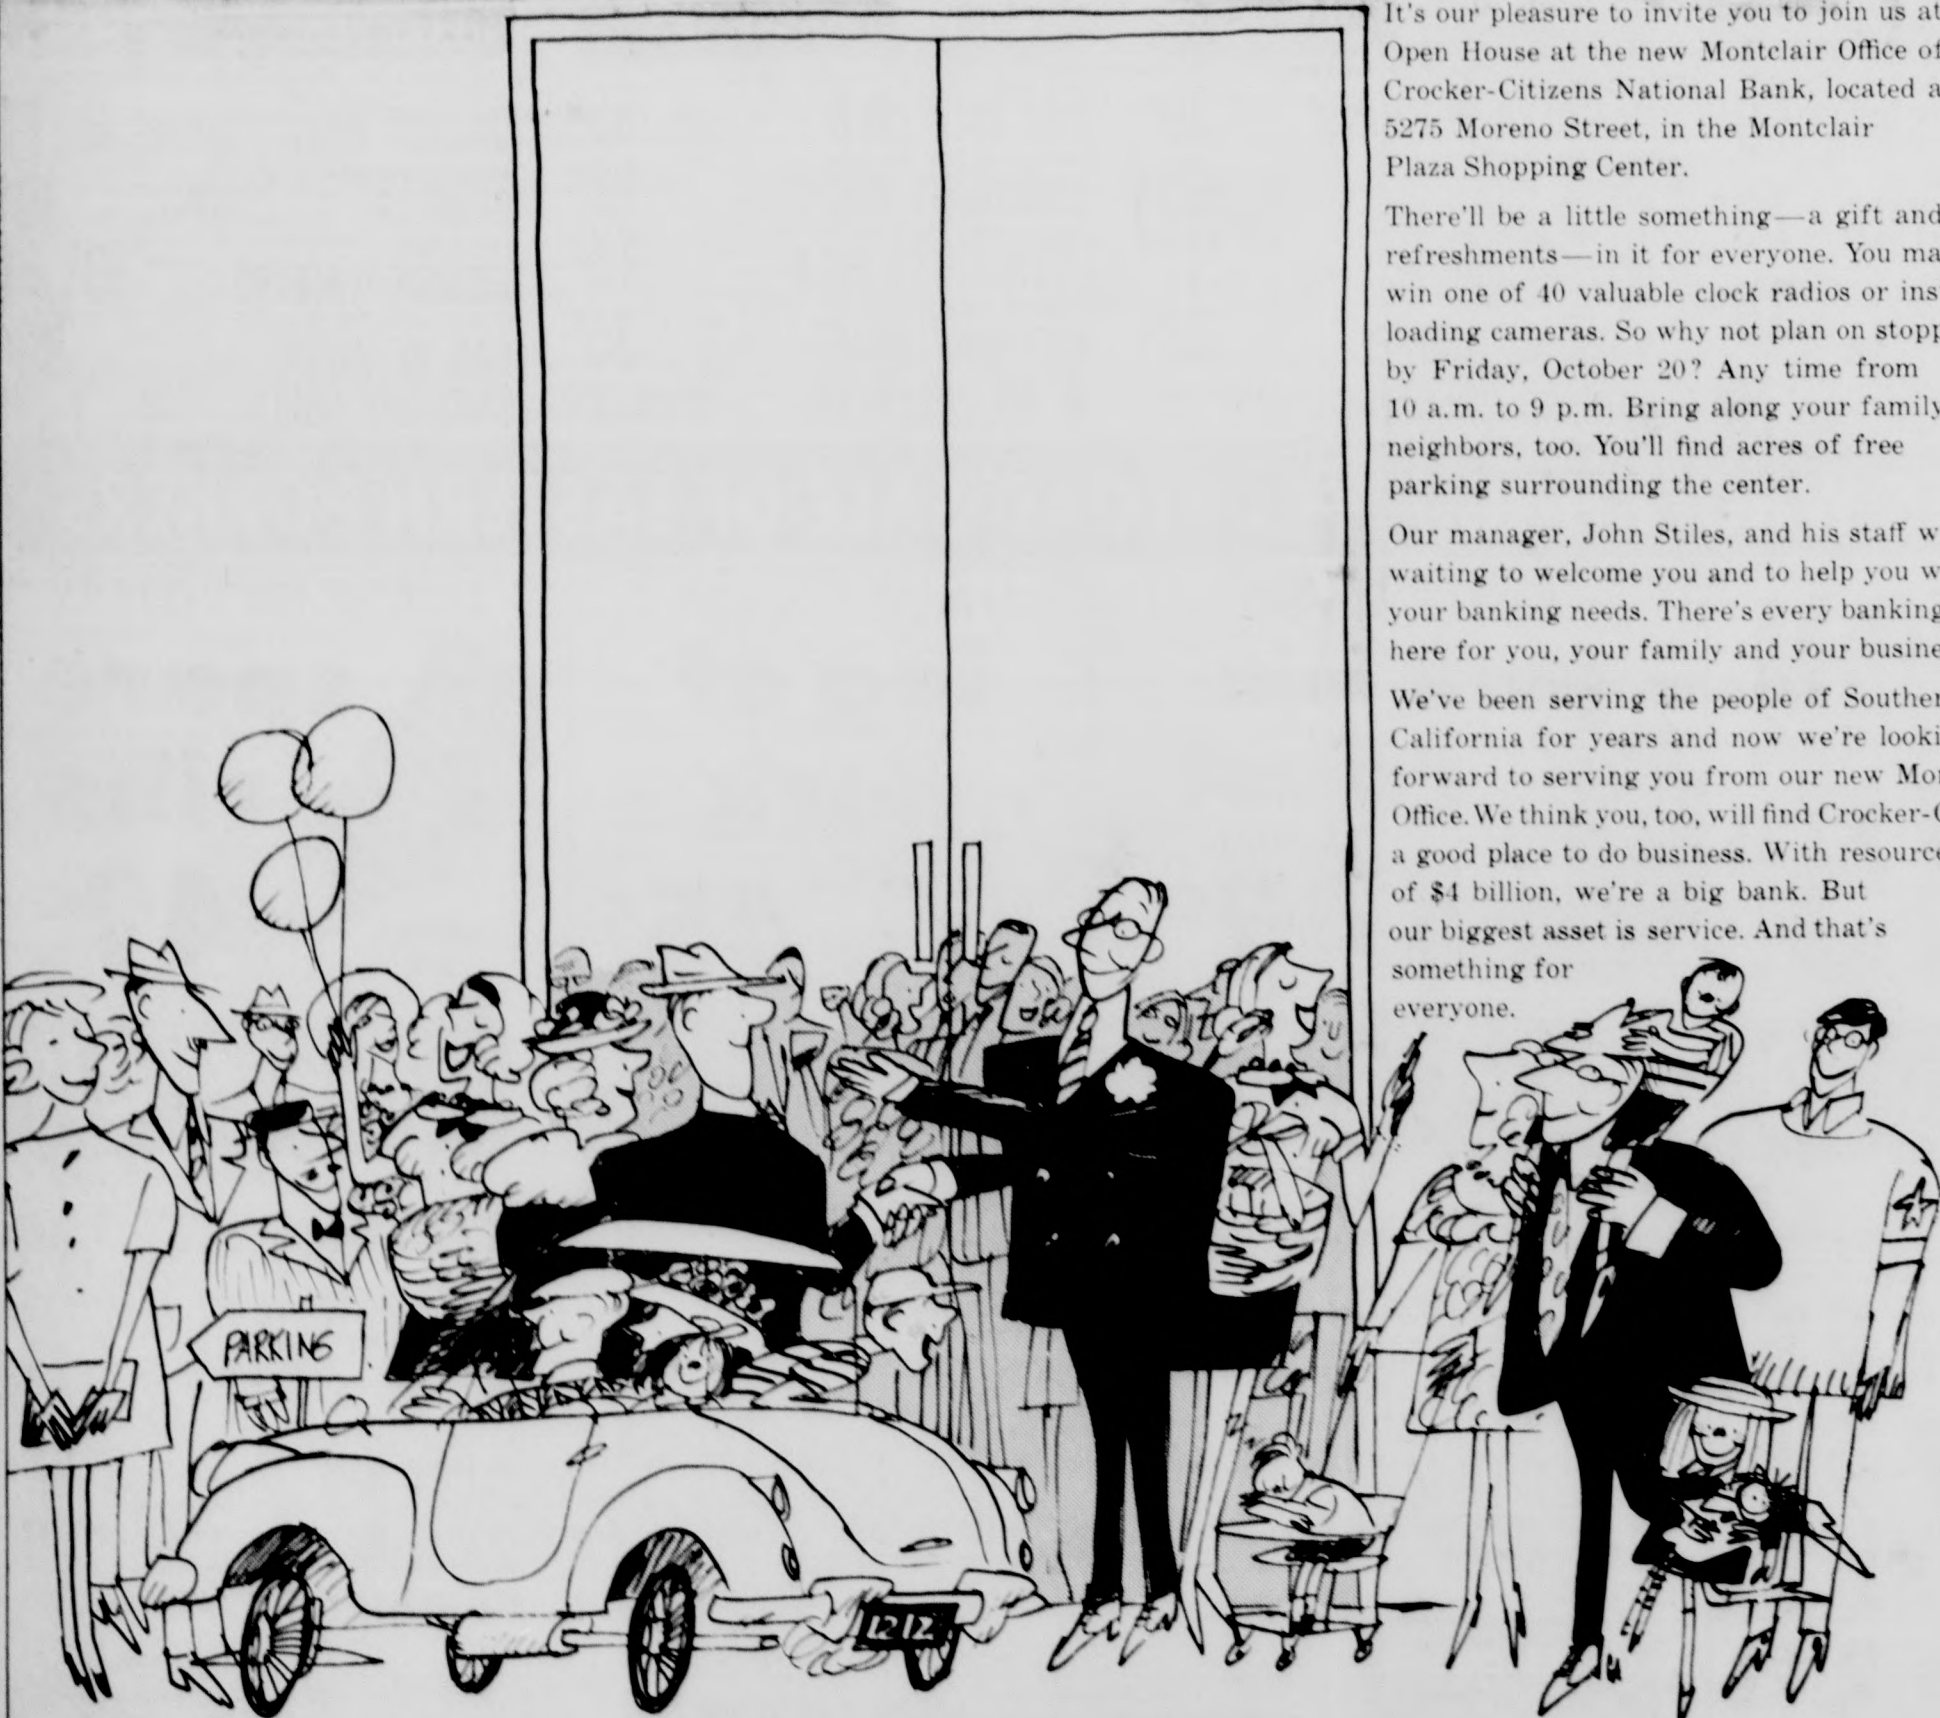

Maury Microwave participates in many trade exhibits, most recently the Munich (Germany) Fair and the WESCON Fair in Los Angeles, both in 1966.

File 13

by Walt Davis

I think a book, "How to Raise a Juvenile Delinquent" would become a best seller. Maybe I'll write it.

Main character in it will be the parent of the perfect child.

Had a letter not long ago from the mother of a perfect angel. Seems he was picked up by the police for just running his hotrod through the gears on a street, getting up to around 60. The car was

a hopped up model for the drag strips.

Seems this perfect child of 18 was found guilty in court, despite the fact that he had never broken a law in his life; the cops were just picking on him.

Checking the record revealed the perfect child of 18 is well known to the police for petty theft, malicious mischief, and disturbing the peace.

He got the car says Mommy, because he proved to be so responsible, and I wonder if that means he was responsible for those earlier charges placed against him and the traffic violation of which he was found guilty.

Just for kicks, I'd like to ask that "responsible" 18-year-old angel just how it feels at the age of 18, presumably that of an adult or near-adult, just how it feels to have Mommy to fight his battles for him, at an age when he should be standing on his own two feet? I would think the apron strings form sort of a choke collar.

Every time I write that parents have to take a lot of the blame for their delinquent children, I get irate phone calls and anonymous letters, from parents who can prove that the fault lies entirely with schools and school teachers, the police, and everyone else, EXCEPT the parents, who realize that their children are really perfect.

So I'm prepared for the barrage of garbage, I am also prepared to make a flat statement again that parents deserve a lot of credit for the way their children turn out,—good or bad.

Hippies, too. Understand a lot of the hippies have had their summer of love and are heading back home, now that it's a little too cool nights to put up with the lack of creature comfort for the great cause.

I love that dedication to great causes that ceases as soon as the weather gets too cool, or something like the world ignoring the cause

makes the dedication evaporate. If it won't last through a little adversity, what good is it? How good the cause?

Hippies have helped Californians set some new records, I believe—higher incidence of venereal diseases and infectious hepatitis.

Who are the hippies? I've heard enough of the bleeding hearts trying to tell us that world, enough to disbelieve the whole theory.

Another "expert" came up with the story that the hippies are not middle or upper class kids, but lower class.

I can tell the bleeding hearts who say the hippies are right about everything, and all the rest of us are wrong, a few things.

One is that flower children are not right about all things, darned few in fact. They are lost, mental misfits, searching for something, without enough brain power to take the first right step to find it.

The bleeders remind me of the ancient aborigines who didn't understand insanity, and therefore virtually worshipped all insane persons.

We have more witch doctors with college degrees than the academicians will ever admit. Unfortunately, we have among our learned professors a cult that worships destructive criticism.

So the world is a mess. It does not necessarily follow that every change is therefore for the better. But to listen to some of the bleeders, the great thinkers, you would think that any change is good.

Phooey. Because marijuana is illegal now, they reason (?) that legalizing it must be a good thing. Same goes for LSD, and a host of other dangerous drugs.

When I hear professors and clergymen who appear to be incapable of reasonable, logical thought, I shudder.

The world is a mess, granted, but they will make it more, not less so. They would compound the fractured leg.

They hurt us all, particularly their own profession. They are their own worst enemies.

Nothing I can say will hurt the image of college professors to the clergy, or any other group so much as those who among them who prove their ignorance and open their mouths.

All I can do is help them put their foot into it.

Neff blanked

Braves looking for another League win

Undefeated Alta Loma High, will try for its fifth straight win when the Braves take on Workman High in a Hacienda League game at Chaffey College at 8 p.m., Friday.

The Braves proved their championship caliber last week by defeating last year's Hacienda Champ Neff, 20-0 before 950 fans at Chaffey College.

In the early part of the second quarter Alta Loma started on a 70-yard touchdown drive after Steve Williams recovered a Neff fumble on the Alta Loma 30. Halfback Jeff King climaxed the drive by plunging over right tackle from four yards out for the score.

Another drive for pay dirt was started by the Braves when they forced the Trojans to give up the ball on downs. This time the drive covered 80 yards highlighted by long runs by King (17 yards) and Dan Stevenson (15 yards).

With a third down and long yardage situation quarterback Rocky Long let go with a 35-yard touchdown strike to end Ruben Rome. Steve Williams added the extra point and the Braves led 14-0 as the gun sounded ending the first half.

It wasn't until the middle of the third period that Alta Loma was able to show its scoring ability once more. The Braves got the break

they needed when Jesse Loeback recovered another Trojan fumble on Neff's 32-yard line. Five plays later Long scampered into the end zone from 15 yards out for the last score of the game.

The Alta Loma defense did a fine job in containing the running of all-CIF back-of-the-year Randy Tyler. Several times during the game the Braves stopped Tyler and the Trojans before they could get an effective touchdown drive started. Three key plays resulting in Neff fumbles gave the Braves an added advantage as they turned two of the misques into touchdowns.

Recognition for their fine

defensive effort goes to Steve Williams, Dan MacIntosh, Rudy Aleman, Felipe Piedra, Richard Leyva, Steve Ryder, Tim Kershner and Jesse Loeback.

One note of concern involves the seriousness of the

injury to tackle David Dooley of the Braves. Dooley suffered an ankle injury in the early part of the game and sat out the rest of the contest. Whether he will be all right for this week's game is undetermined as yet.

END Dale Magruder shows why he is the star receiver on the Upland High football squad.

Upland can repeat rout next Friday

Montclair Cavaliers might be upset minded when they entertain the Upland High Highlanders, but it looks like last year's San Antonio League champs will take a beating from the Uplanders Friday night, starting at 8 o'clock.

While the Highlanders have been in the winning column, Montclair has found it rough. Upland has a 2-0 league record, while Montclair has found it rough. Upland has a 2-0 league record, while Montclair has the opposite, 0-2.

Last week end, while Montclair was losing to Claremont, 20-14, Upland showed its strength again walking all over hapless Bonita 49-13.

Upland is shaping up as one of the two teams to beat in the SAL. Pomona is ranked third this week in AAA ball by the sports writers, and Upland was knocked out of the top 10 for the first time this season. Pomona, Upland's Nov. 11 opponent, looks like the Highlanders'

toughest challenge in the SAL.

Last Friday, it was Upland all the way, on the ground, in the air, on defense.

Upland added 422 of its yardage gain on the ground, and Steve Quinn can claim a hair more than half of that. Also leading the attack were Gary and Jim Cooper, and quarterback-passers Vance Willison and Paul Katona.

Dale Magruder proved a formidable pass receiver, and Craig Kogut added seven straight points after touchdown with his educated toe.

Upland racked up a 14-0 lead in the first eight minutes of the first quarter and both coopers hit paydirt.

It was a Highlander fumble that set up the first Bearcat score, on the Upland 14, in the second quarter.

Bonita played its best football then, but was no match for Upland.

Willison took to the air and hit Magruder with what proved to be a 57-yard pass play for a TD.

Tim Butcher gathered in a Bearcat pass to climax a series of plays in which the defensive star starred, and added another Upland tally.

At the half, it was Upland 28, Bonita 13. Second half was an even stronger indication of whose game it was. Upland added 14 points in the third, another 7 in the fourth, and Bonita didn't make a score.

Upland's defense bottled up Bonita's star Steve Russi, even tighter in the second half than in the first, and the Bearcats were thrown for a net loss of 17 yards.

Upland capped a 60-yard drive with a 12-yard TD run by Jim Cooper, then brother Gary crossed the goal line for the culmination of a 65-yard drive.

Steve Quinn added the final coup in the last quarter at the end of a 69-yard drive.

Substitute Montclair for Bonita, and the story could be the same next Friday night.

PW teams sweep again

Clean sweep again--Sunday, Oct. 15, the Upland Chargers crushed the San Dimas-La Verne Vikings 31-7, the Upland T-Birds smashed Fontana Wild Cats 33-0 and the Upland Hawks walked over the Fontana Bucks 32-13.

CHARGERS
Early in the first quarter, Rocky Chapman, of the Upland Chargers, with good tackling caused a fumble on the San Dimas-La Verne Vikings 17-yard line, which was picked up by David Carter who ran it for a TD. PAT no good.

After the Chargers kicked off, and on the Vikings third play, intercepted a pass on the 33 yard line of the Vikings who returned it to the 23 yard line. Rocky Chapman with fine blocking ran it over for a TD. PAT no good.

The Chargers kicked to the Vikings 25-yard line to Jeff Rathack who returned it 9 yards. Then on the third down Kent Williams ran for 85 yards. With the ball on the 17 yard line Cory Chapman recovered a fumble. A pass from Rocky Chapman put the ball on the Vikings 39 yard line. Another pass to Rocky Chapman for 13 yards, and with the ball on the 26 yard line Rocky Chapman ran for the TD with the help of a beautiful block by Bill Turner. PAT run by Dan Carroll.

At half time the crowd was entertained by the very enthusiastic cheerleaders of both teams.

Middle of the third quar-

ter saw the Vikings knocking on the Chargers' door on the five yard line. A couple of plays later Bill Turner recovered a fumble set up by Rocky Chapman on the 10 yard line. David Carter than ran 70 yards for a TD on an end around with fine blocking from his team-mates. PAT no good.

Start of the fourth quarter Kent Williams of the Vikings on a double reverse ran 46 yards for their only score. Pass for the PAT good.

The Vikings then tried an on-side kick but the Chargers dropped on the ball at the 40 yard line. A pass to Rocky Chapman who ran it to the 7 yard line. Bob Rabun then ran it over for another TD. PAT attempt by Dan Carroll no good.

Coach Dave Zuccolotto and Asst. coach Jim Taylor lauded all the boys for their fine team effort and victory. Every boy on the Charger team had his opportunity to play, with the exception of one new boy who hadn't completed the required hours of calisthenics.

The San Dimas-La Verne Vikings are a new team. This is their first season and are to be congratulated for their outstanding effort and sportsmanship.

HAWKS
Playing in the midget division of the Mt. Baldy Pop Warner conference the Upland Hawks maintained their unbeaten, untied status Sunday by a score of 32-13 over the Fontana Bucks.

Upland took the immediate

lead by returning the kickoff for a TD on a great run by Gary Ware. Rudy Alonzo ran across for the PAT.

Fontana attempted to tie it up when a pass play gave them six points but the Hawks line kept them from getting the PAT.

Upland scored again when Raul Abrego ran over for a TD and also made the PAT.

Before the half was over Gary Ware again made an outstanding 53 yard run for still another Upland TD. The PAT was unsuccessful.

Early in the second half Upland was able to hold the Bucks after a succession of plays had brought them to within 6 yards of the goal line. On the first play after regaining possession of the play the outstanding footwork of Raul Abrego executed 94 yard run put the Hawks on the scoreboard again. PAT unsuccessful. In the fourth quarter Fontana made their second TD and were successful in making the point after.

Head coach Chuck Harness remarked he was particularly pleased with the defensive work shown by Tony Paseluta, Richard Cramer and Brian Strawser, and credits the whole defensive squad with holding the tough Fontana team to only 13 points.

T-Birds
In the PeeWee division, the T-Birds scored 14 in the first quarter, 7 in the second and 6 each in the last two frames.

One Slo-pitch team sports 3-0 record

Blanchard Distributing Co. sports the only perfect record after three weeks of play in the Upland Recreation Department sponsored Winter Slo-Pitch League. Four teams are in close pursuit with only one loss.

In the wildest game of the young season, Jolley Farms handed Agitator Shop their first loss in a 20 to 16 slug fest. The Mets scored 8 runs in the ninth inning against Jolley Farms to score a 13-10 victory and remain in contention.

Jack Hammond (Mets) and Bill McCall (Agitator Shop)

have two homeruns apiece to lead the league in that area.

Games are played Tuesday and Thursday nights at Upland Memorial Park. The league will continue through the middle of December.

Standings:
1. Blanchard 3 0
2. Agitator Shop 4 1
3. Romar McGowan 3 1
4. Upland Mixers 3 1
5. Westside 2 1
6. Jolley Farms 2 2

FOREIGN STUDENTS -- Chaffey College faculty wives club will host a Halloween dinner for international students on October 21. Mrs. Edward Myers (left) program chairman, and Mrs. Louis Gentile (right), co-chairman discuss the event with two of the students, Miss Vilai Yamali and her brother Prasit. They are students from Thailand in their second year at Chaffey College.

Faculty wives to host foreign party at Chaffey

Chaffey College Faculty Club members and their husbands will host international students at a Halloween potluck Saturday, Oct. 21.

Forty-two students currently enrolled on the Alta Loma Campus from 19 different countries will be honored at the 6:30 annual affair.

Plans for the event were finalized at a recent Board Meeting at the home of Mrs. Jack Frost with Mrs. George Vinnedge assisting with refreshments.

Mrs. Marlin Dickey is General Chairman of the event with Mrs. Louis Gentile serving as co-chairman. Hostess committee members are Mrs. Wesley Harmon, Clarence Calhoun, Charles Miller, Joseph Reynolds, George Elser, Drue Hampton, Lloyd Aanstad, and

Samuel Contino.

Program Chairman, Mrs. Edward Myers, has arranged for members of Prof. Homer Davis' Interpretive Reading Class to give their impressions of the Harvest Season. Students participating are: Sheryl Briner, Antoinette Roberge, Robert Sifuentes, Gail Wandel, Susan Washburn, and Karen Wilson. As a special highlight of the evening, Emille Clemente, Philippine Islands; Hernando Becerra, Columbia; Shahr Batterjee, Arabia; and Margarita Rojas, Mexico; will give the group a glimpse of 'Halloween around the World' by relating incidents of the fall festivities from their respective countries which are comparable to Halloween here.

Groundwork pays off

Past ground-work as a vital factor in meeting the needs of the future will be Chaffey College president Harry D. Wiser's topic at a community convocation, Oct. 23.

The title of Dr. Wiser's address at the 9 a.m. session in the gymnasium will be "Foundations of the Past, Images of the Future." The session will mark the second annual President's Convocation featuring Chaffey's chief administrative officer as speaker.

Dr. Wiser will be introduced by James Kelber, president of the Associated Student Body, the organization sponsoring the convocation. The ASB invites the public to attend.

Around The World With Fashions - theme of Realtor's showing

CAUGHT IN THE ACT -- Walt Montini of the Upland-Ontario Board of Realtors was seen recently in the act of borrowing some of that beautiful green stuff from a fleeing wood nymph named Beverly Verna. Montini and Miss Verna really staged the whole scene to draw attention to the Realtor's fashion preview and luncheon, scheduled for Friday, Oct. 20 at the Royal Tahitian in Ontario.

The Upland-Ontario Board of Realtors' coed luncheon-fashion show, Friday, Oct. 20 at the Royal Tahitian, Ontario, will be highlighted by the appearance of past president, David (Doc) Butler.

Butler will present his "Home Town" speech, which took top honors, state-wide, at the recently held California Real Estate Association Convention in Los Angeles.
